

ADOPT-A-STREAM MISSION

"To protect the water resources of the St. Clair River Watershed through information, advocacy and education".

Adopt-A-Stream is administered by St. Clair County MSU Extension and 4-H Programs to promote cooperative action on water management issues.

Current Partners:

- St. Clair County Drain Office
- St. Clair County MSU Extension
- St. Clair County 4-H Programs
- St. Clair County Health Department

ADOPT-A-STREAM PROJECT DESCRIPTION

This is a "grassroots" program designed to encourage community volunteer involvement. Anyone interested in taking action to improve our watershed is eligible and encouraged to take part in activities. Youth clubs, schools, churches, neighborhood associations, lake associations, businesses, civic organizations and others can:

- Implement stream bank clean-ups.
- Conduct stream bank surveys.
- Monitor stream insects and gauge water quality.
- Learn more about St. Clair counties watersheds.
- Become actively involved in improving local water quality.

GETTING STARTED

To begin Adopt-A-Stream activities in your area:

- Organize your group of approximately 10 people per half mile of stream and choose one person as your contact person/group leader - we encourage you to include youth as part of your team!
- Fill out and return the form provided and return to Liane Allen the 4-H Adopt-A-Stream coordinator for more information about "adopting a stream".
- Group leaders will be trained prior to specified dates for spring and fall water quality testing and clean-up. Equipment is issued at time of each training and returned by groups after each date.
